# ABOUT DELTA SECURITY

## WHO ARE WE

DELTA Security is a part of SBR Holding based in Doha – Qatar which owns and operates several subsidiaries in diverse sectors.

DSS's subsidiaries are a mix of organically grown enterprises and international partnerships. Our brands have an established presence and a record of accomplishment in the Qatari market, serving flagship projects, customers, and facilities in the private and public sectors.

**WE ARE PROUD TO BE CONTRIBUTING TO THE GOALS OF QATAR NATIONAL VISION 2030 BY LEADING THE TRANSFORMATION OF QATAR'S TECHNOLOGY INFRASTRUCTURE, TO DEVELOP THE NATION INTO ONE OF THE MOST ADVANCED COUNTRIES IN THE WORLD.**

DSS is committed to provision of Engineering, Design, Supply, Installation, Commissioning and Maintenance of complete Security Integrated system, ELV System, IT-ICT System, Security Surveillance, Scanning & Detection System, Life Safety System, Traffic Solutions, Emergency Vehicles Installation Program EVIP and Security and Emergency Vehicles Light Bar Solutions , Guard Electronic Monitoring System GEMS, Cleaner Monitoring System, People Counting System , Visitor Management System , Elevator Management System , Hotel Management , Smart Waste Bin Management System and Parking Management with the aim of creating value to our Clients and Costumers improving their experiences and achieving zero lost time due to injury.

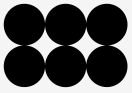

## CORE VALUES

OUR SUCCESS IS A COMBINATION OF TWO KEY INGREDIENTS: THE CONTRIBUTION OF OUR EMPLOYEES AND THE SUPPORT OF OUR VALUED CUSTOMERS.

EXCELLENCE	Maintaining a personal commitment to professionalism and integrity, excellence in performance, and standing by our ethical standards through quality control and continuous improvement.
INTEGRITY	Acting with transparency, commitment, and honour without compromising the truth.
INNOVATION	Striving for new creative ideas that have the potential to guarantee customer satisfaction & business success.
RECOGNITION	Improving the knowledge, skills, and capabilities of our employees by providing professional development, rewarding achievement, and encouraging teamwork to achieve the organization's goals and values.
ACCOUNTABILITY	We hold ourselves accountable for the quality and adequacy of work performance and strive to increase productivity and mitigate adverse events to business processes.

## **VISION**

To be the integrated security company trusted and chosen by the majority of customers in the business, commercial and industrial sectors and by business and professional residential customers.

To be seen as a world-class leader assisting clients with all aspects of their Extra Low Voltage requirements, regardless of project size.

## **MISSION**

To provide latest, relevant, Comprehensive Security Solutions that confirm with custom existing and Future Needs.

To inform and educate our customers on the security solutions available, so that they can make the best choices to meet their needs and provide them complete peace of mind.

## **KEY TO SUCCESS**

- Identifying and understanding the customer's requirements.
- Designing the most innovative solutions & Timely delivery.
- Complete Understanding of the Projects.
- Unsurpassed quality and reliability.
- After sales service and support.

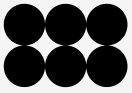

# **OUR PROFESSIONAL TEAM**

DSS is managed by a team of world class professionals in every aspect of the business. Together, we have created an inspirational success story.

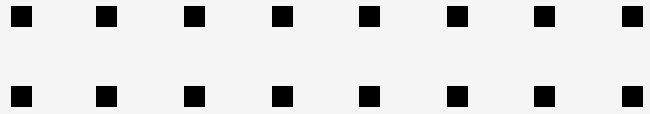

Our Board of directors have an extensive and diverse business experience enabling them to bring strong leadership and expansive vision to the company as it continues to grow.

Our strong operating management structure is complemented by experienced reputable managers and a robust leadership team who holds practical experience in the security industry and has also served as an industry trainer and as a member of the industry professional association.

# OUR CUSTOMERS

Our invaluable experience provides all our customers with a level of service and confidence unsurpassed in the industry. We have a proven reputation for excellence, value for money, innovation, and experience across the entire security spectrum. BODY SCREENING

EXPLOSIVES DETECTING

METALS DETECTING

CHECKPOINT SYSTEMS

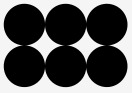

# ANTI-THEFT SYSTEM EAS & RFID

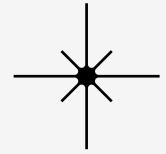

EAS system helps to prevent theft within your premises. This is a smart shop security solution with a RF or AM Antennas and RFID Tags that can detect the things or materials which are not presented at the cash counter. If RFID tags are not detached from the materials, the antennas will detect the tags and trigger an alarm. DELTA Security System, Leading System installer and supplier in Qatar, provides complete Anti-Theft management System in the region.

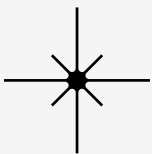

# GUARD ELECTRONIC MONITORING SYSTEM (GEMS)

Delta Security is one of the Qatar leading providers of high-tech guard patrol systems, security guards' equipment, tracking software, devices, security guard supplies, security officer equipment supply.

Our security patrol monitoring system and device can be used to keep track of where your staff are and monitor that duties are being carried out correctly. This ensures that rounds are completed efficiently and eliminates the need for cumbersome timesheets and paper-trails.

Patrol Management System is a convenient and powerful software that helps in patrol planning, report generation, shift assignment, database maintenance and hardware settings. The functions of patrol management are scheduled automatically, and predefined locations can be controlled based on actual time. Patrol history and related reports, guard patrol performance report etc., helps to manage own team and vendor performance effectively. Emergency alerts points and incident reporting helps improve security and scanning of checkpoints through NFC and BLE using low-cost Android devices makes it simple and cost-effective implementation

## CLEANER MONITORING SYSTEMS

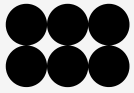

It is even more essential in this changing world that you ensure workplaces are clean and hygienic for employees and visitors, as well as members of the public. Risk assessments and monitoring of all cleaning services are becoming mandatory, with cleaning regimes in all organizations being increased in frequency to reduce the possible spread of infection via contaminated objects within the workplace.

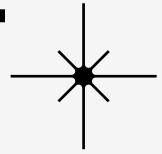

These systems are used to prove that an operative was at the location, at what time, and whether any task was undertaken e.g., deep clean performed, bathroom facilities cleaned and checked, work surfaces disinfected, etc. They are also used as a preventative measure to prove that any spillages are removed to avoid potential slips and falls. As a part of our Solutions, DSS is ready to Supply Install and Maintain Cleaner Monitoring Systems in the Region.
